

optional part

101 102 103 104 105

The diagram shows five optional parts for the 3D printer, each labeled with a number and an arrow pointing to it:

- 101: A rectangular tray with six circular wells.
- 102: A rectangular tray with a grid of triangular wells.
- 103: A vertical support structure with a horizontal arm and a circular base.
- 104: A vertical support structure with a horizontal arm and a circular base, similar to 103 but with a different internal structure.
- 105: A circular disc with a central hole and a grid of small holes.
