

This exploded view diagram illustrates the assembly of the LG LDC20726D refrigerator. The components are numbered 1 through 26, corresponding to the parts list on the right. The diagram shows the main refrigerator body (12) with its front panel (7) and top cover (26). The top cover is composed of several sections (1, 2, 3, 4) and is secured with screws (5, 6). The front panel features a large oval handle cutout and is attached to the body with screws (8, 9, 10, 11, 12). The bottom of the body is supported by feet (13, 14, 15). The back of the refrigerator shows the internal structure, including the condenser coils (16, 17, 18) and the rear panel (19). The door is shown with its internal components, including the hinge (20, 21, 22) and the door panel (23, 24, 25).

This diagram shows the exploded view of the motor assembly. The components are numbered as follows:

- 27: Two small electrical connectors or pins.
- 28: A rectangular component, likely a filter or part of the motor housing.
- 29: A small electrical plug or connector.
- 30: A small electrical plug or connector.
- 31: A small electrical plug or connector.
- 32: A small electrical plug or connector.
- 33: A small electrical plug or connector.
- 34: A small electrical plug or connector.

Exploded view diagram of the front panel assembly. The components are labeled as follows:

- 48: Small circular component (likely a button or cap).
- 49: Rectangular front panel with a circular cutout.
- 50: Mounting bracket or frame.
- 51: Base plate or mounting plate.

Exploded view diagram of the front panel assembly (47.1). The diagram shows the following components and their assembly sequence:

- 47.1: Front panel assembly
- 47.2: [Component]
- 47.3: [Component]
- 47.4: [Component]
- 47.5: [Component]
- 47.6: [Component]
- 47.7: [Component]
- 47.8: [Component]
- 47.9: [Component]
